See Tiered water rate structure billing cycles on second page

Per Regulation 2018-1 A Tiered Water Rate Structure for Commercial Water Connections. “Customer meters will be read on a monthly basis. Commodity based water usage will be billed quarterly with the following billing cycles”

Commercial billing cycle:

- July 1 – September 30
- October 1 – December 31
- January 1 – March 31
- April 1 – June 30

Bills will be sent within 30 days or the end of the billing cycle and are due within 60 days

Bills will be sent within 30 days or the end of the billing cycle and are due within 60 days

Effective July 1, 2018, MMWC#2 will have the following rate structure for all Commercial Water Customers. Water Usage rates as detailed below are per month.

| COMMERCIAL WATER RATES | | |
|-------------------------------|-------------------------|---------------------------------------|
| Tier | Water Usage | Rate per 100 gallons |
| 1 | 0-5000 gallons | Included in annual assessment |
| 2 | 5001 – 10,000 gallons | \$0.75 |
| 3 | 10,001 – 20,000 gallons | \$1.50 |
| 4 | 20,001 – 30,000 gallons | \$2.50 |
| 5 | Over 30,000 gallons | \$2.50 plus excessive water use fines |

Effective July 1, 2018, MMMWC#2 will have the following excessive water use fine structure for Commercial Water Customers.

| EXCESSIVE WATER USE FINES | |
|--|-------|
| First offense within a calendar year | \$100 |
| Second offense within a calendar year | \$250 |
| Third and subsequent offenses within a calendar year | \$500 |

At the Board’s sole discretion, any Tier 4 usage may trigger additional measures to reduce water consumption by the water user. Any Tier 5 usage may also trigger restrictions on water deliveries to that water user.

Water meters will be read monthly and billed quarterly. All water rates are in addition to the normal annual assessments for water and snow removal.
